One Heart Flower Essences

The Divine Feminine essences
"Bringing Harmony and Peace into Your Life"

Greetings and Welcome to the One Heart Flower Essences –
Created individually at sacred sites in the Languedoc region of the South of France.

The Languedoc region of the South of France has traditionally been a place of healing and rejuvenation. For centuries people have come from all over the world to enjoy and take advantage of its healing and vitalizing waters, it's pure and healthy foods and it's abundance of Herbal remedies. The region is steeped in many spiritual traditions and is particularly home to Mary Magdalene and her sacred feminine lore. All the One Heart Flower Essences are infused with her blessings and healing energies.

The water, the soil and the very air one breathes while walking the land is imbued with a heightened frequency that is nurturing, elevating and exalting. One cannot help but feel the powerful healing energies of this land.

One Heart Flower Essences are vibrational remedies that assist us in achieving optimal health in all aspects of our being by flooding our body with positive energies that resonate with our true nature, which is our ability to love, to forgive, to be compassionate, to trust and to have wisdom, understanding and tolerance for ourselves and others. With repetitive use One Heart Flower Essences will build up and strengthen these innate qualities, helping us become stronger, more balanced and in more harmony with ourselves and our environment, helping us heal and to move forward in life.

The One Heart Flower Essences are particularly effective in strengthening and magnifying our Soul's Light in our bodies and as such they carry a strong healing energy that is both powerful yet gentle. They help lift our consciousness, so that we can live our lives with more enlightened awareness, giving us a greater sense of joy, peace and wellbeing. They are the perfect remedy to assist us in the 21st century and their healing abilities are specifically matched to alleviate the current human problems and concerns of our times.

One Heart Flower Essences are completely safe to use in conjunction with any other remedies or medications and they have no harmful 'side effects'. They are safe to give to pregnant mothers, children and babies. They are also effective with animals. Take 4 drops of essence 4 times a day directly on/ under your tongue or diluted in water. They can also be used in your bath water.

The 38 Languedoc Flower Essences

These are 15ml concentrates/stock remedies. Each bottle contains approximately 280 drops which make an average of 70 individual remedies to either share or take personally. To make a personal remedy, add 4 drops of the concentrate to a 15ml – 30ml bottle of water (and brandy, if remedy will not be consumed within the week). Alternatively, you can take the remedy directly from the bottle, undiluted, and you will have the same results.

General dose is 4 drops 4 times a day.

To choose your personal remedy – first and foremost use your intuition. Choose the ones that “talk to you”; the ones that you relate to

You can also use muscle testing or any method of dowsing to choose your remedies. It is advised to work with 4-6 remedies at a time, at the most, in order to allow the process to fully unfold in you.

Note: All One Heart flower essences are packaged in the special Miron Violet Glass in order to preserve their high frequency and vibration and to prolong their shelf life. The Miron Violet Glass prevents deterioration by UVA and UVB light. Please remember to recycle or re-use the bottles if possible.

Blue Gromwell

Let Go and Surrender
Helps us let go and surrender wholly and completely to the divine infinite flow of spirit. This letting go is not about denial, disintegrating or becoming powerless or subservient, it is about yielding and allowing oneself to flow, like water. This remedy helps free us and helps dissolve rigidity in our minds and bodies. It also helps those who need to move more into their feminine side. Physically it helps to relax our muscles, release tension and calm our intestinal tract.

Bramble

Compassion
Helps us see the beauty, the innocent delicacy, the 'reality' of the person who is hiding behind a prickly surface. Many people put up barriers of protection to prevent others from getting too close to them, because of traumas they have received in the past. Often these shields are so effective (and nasty) that they keep people away from them permanently. This essence helps us see beyond and go beyond these 'thorns' so that we can access and communicate with the true essence of the person.

Buddleia

It helps us express what we really want to say and empowers our words.

Spanish Broom – Mother Creation

This flower essence is “the mother” of the One Heart Flower Essence system and she embodies the consciousness of the Languedoc region. The Goddess mother is the creative void who gives birth to all physical manifestation on earth. When the male energies nourish her she reciprocates and bestows HER gift of life and nourishment. From her comes the wisdom of spiritual evolution. This essence helps one step into the divine flow of creation, into the divine consciousness of the mother goddess. This essence absorbs the heart pain and transmutes it, so it is safe to let go.

Valerian Red – Heart Renewal

Another essence for the wounded heart, but it acts differently. It helps renew our passion for love and for life. It gives the heart fire energy, helping us continue despite the wounding and the pain. This is not prana energy as given to the etheric body, this is very specific energy that is given to the heart... ‘heart energy’. This essence helps us to reopen our hearts with renewed hope, trust, passion and love.

Valerian White – Heart Wisdom

For the person who has suffered heart wounds as a result of the fanatical and zealous actions of others. This kind of abuse is the result of a disconnection and a separation between the perpetrator’s mind and heart. This essence is not for the inflictor; rather, it is for the one who has received abuse, since their healing of these abusive actions comes by way of Wisdom, which then leads to forgiveness.

Heal Addictions

The Viperine is an incredible healer! This flower essence heals damage to the aura due to smoking cigarettes, alcohol, surgery or taking other drugs. Viperine also helps heal physical, emotional and mental addiction to pain, which is at the root of all aversions and addictions. This pain is actually our resistance to the experience of life. The essence opens the heart to receive more unconditional love from the universe and as a result the heart expands and more self-love is generated – going to the pain that led to the addiction in the first place. I have been selling Happy Pet in my Veterinary practice for over 12 months. Clients are very impressed with this product. Many notice improvements in the pet's behaviour and temperament within 2 weeks. They continue to keep using Happy Pet and recommend it to their friends as well. Its effect seems to be superior to other essences, including Rescue Remedy. It has been used for timid pets; for those adjusting to the loss of another pet or family member; for puppies and kittens going to a new home and for compulsive behaviours like paw chewing. Happy pet is amazing for cats on heat. No yowling in just a few hours after 2 drops... thank you. I can recommend this product highly.

My experiences with the Languedoc Flower essences from France were both joyful and powerfully healing. It is my belief that, as we heal and fully integrate the divine vibrational beings we are, higher frequencies are needed to assist us. I felt these flower essences on many levels - soul, mental, emotional and physical. I am truly grateful for the gifts they and Carol Asher share with us.

A beautiful creation, of the highest order, has been brought alive through you dear Carol. The feeling generated by the essences is a richness and deepness not generally felt with flower essences. They are of the new light healing order, brought through to help us in the now and they have very clear and very strong results.

The workshop on the Languedoc Flower Essences was a powerful and enriching experience. Each essence spoke strongly for itself, vibrating at a high frequency, which echoed its roots in that special part of the earth. When the day was over, I was immediately aware of being in touch with and speaking my inner truth with a new level of assurance. The essences work at a very profound level and are continuing to unfold in my life.

Just a note to thank you so much for your help during my son's recent difficulties. I was quite surprised that he was so willing to use and enjoy the oil blends and the flower essence you recommended for him. They seem to have been perfect choices for his emotional state, since all his problems have resolved beautifully. He moved quite quickly from a state of depression to a balanced optimism, where his courage and masculine drive returned, and his very real life situations resolved in ways that were quite surprising.

Shreshta Carol Asher

Creator of the One Heart Flower Essences

Shreshta Carol Asher, BA (Hon.) was inspired to make her first One Heart flower essences during an educational medical Aromatherapy seminar in the South of France in 1998. For over 30 years she had been researching and teaching various healing modalities, in Australia, Europe and in the United States.

On this trip, as she took a class break to walk in the fields, certain flowers began to 'talk' to her. She made the 10 initial essences, which proved to be effective and applicable to her students and friends, and from then on she has returned yearly to the South of France, as she was being called to develop the rest of her system, in response to people's health and spiritual needs. There are 38 essences to date.

Shreshta Carol now teaches One Heart Flower Essence Therapy, Vibrational Aromatherapy, Essential Oil Bath Therapy, Awakening the Magdalene Essence workshops, Egyptian Goddess Reiki and Oneness Awakening Courses internationally. She also offers consultations as a skilled reader of the Akashic Records, having supported and helped thousands of people all over the world gain more clarity and happiness in their lives.

Her compassion and dedication to the path of healing in cooperation and with the guidance of Nature is woven into all her workshops and consultations.

She currently resides in Port Willunga, South Australia.
